Species at Risk on DoD Lands:

Updated maps and analyses

December 2014

Tracked elements

- Imperiled and vulnerable plants (focus on vascular plants)
- Imperiled and vulnerable animals (all vertebrates and many invertebrate groups)
- Exemplary ecological communities (most programs)

NatureServe Conservation Status:

Global (G) Ranks

White-Fringed Orchid, G2G3 Listed Threatened

GX - Presumed extinct

GH - Possibly extinct

G1 - Critically

d

G2 – Imperiled

G3 - Vulnerable

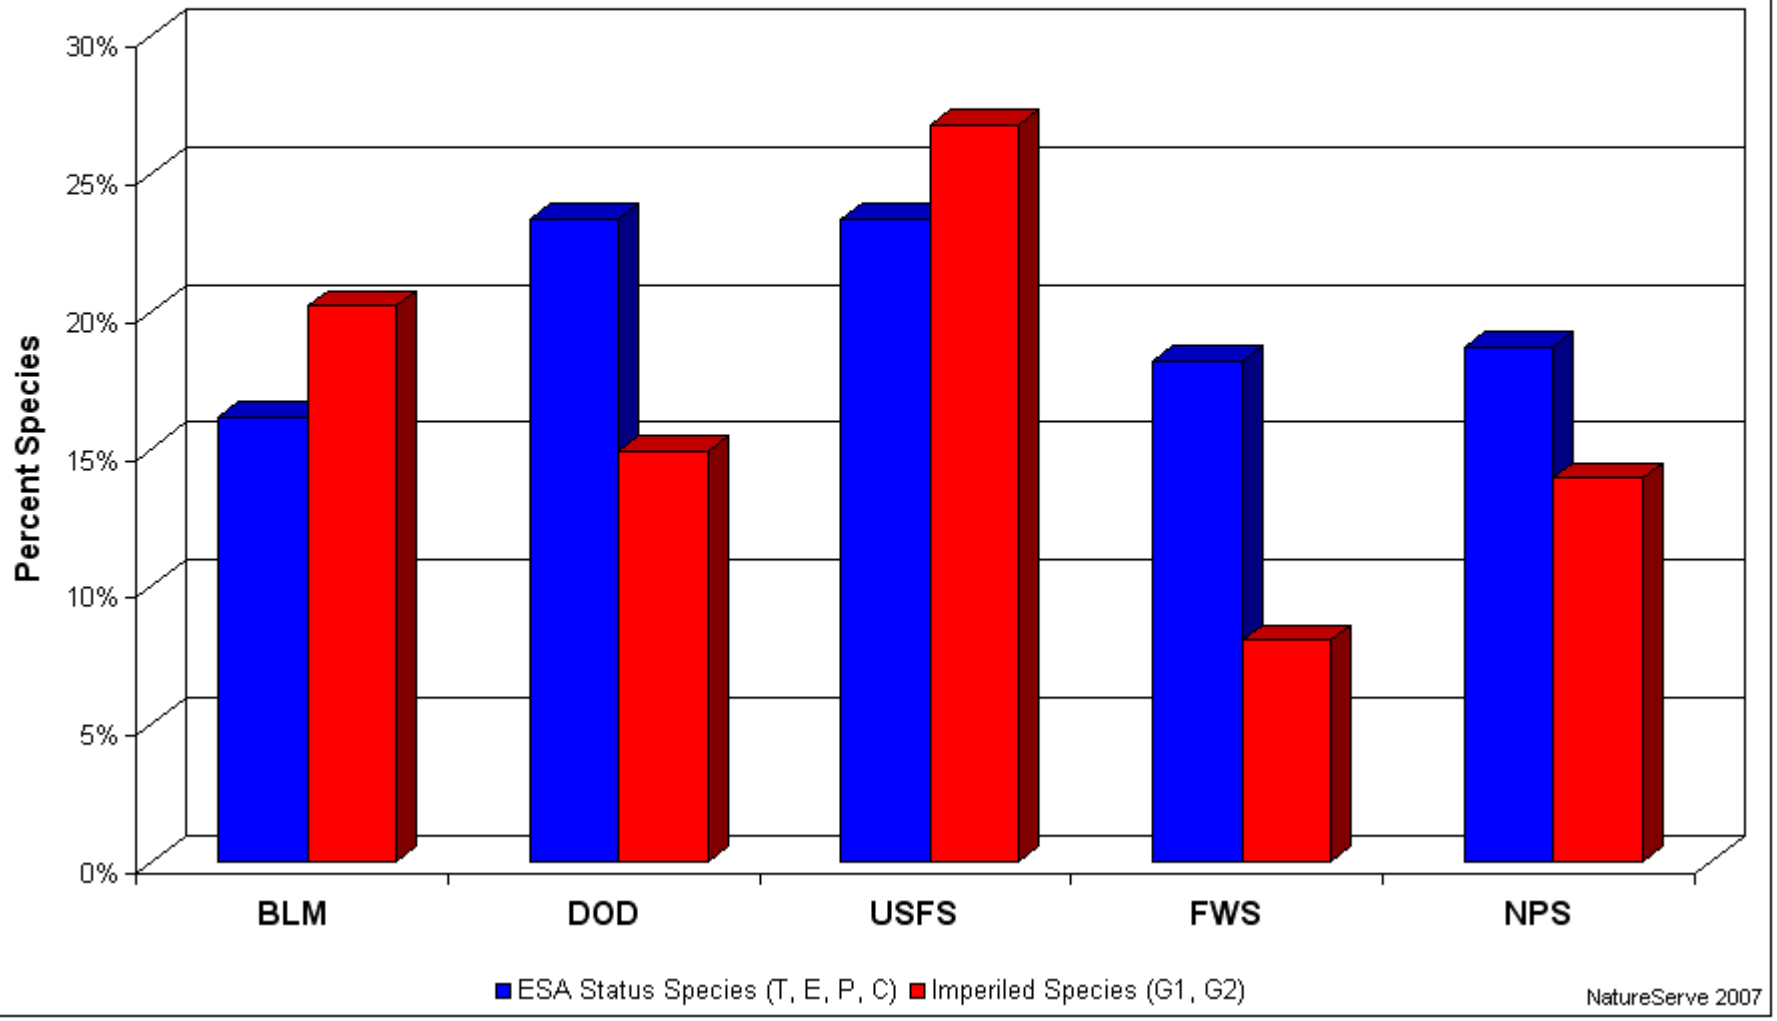
Used in analyses of Species at Risk

G4 - Uncommon but apparently secu

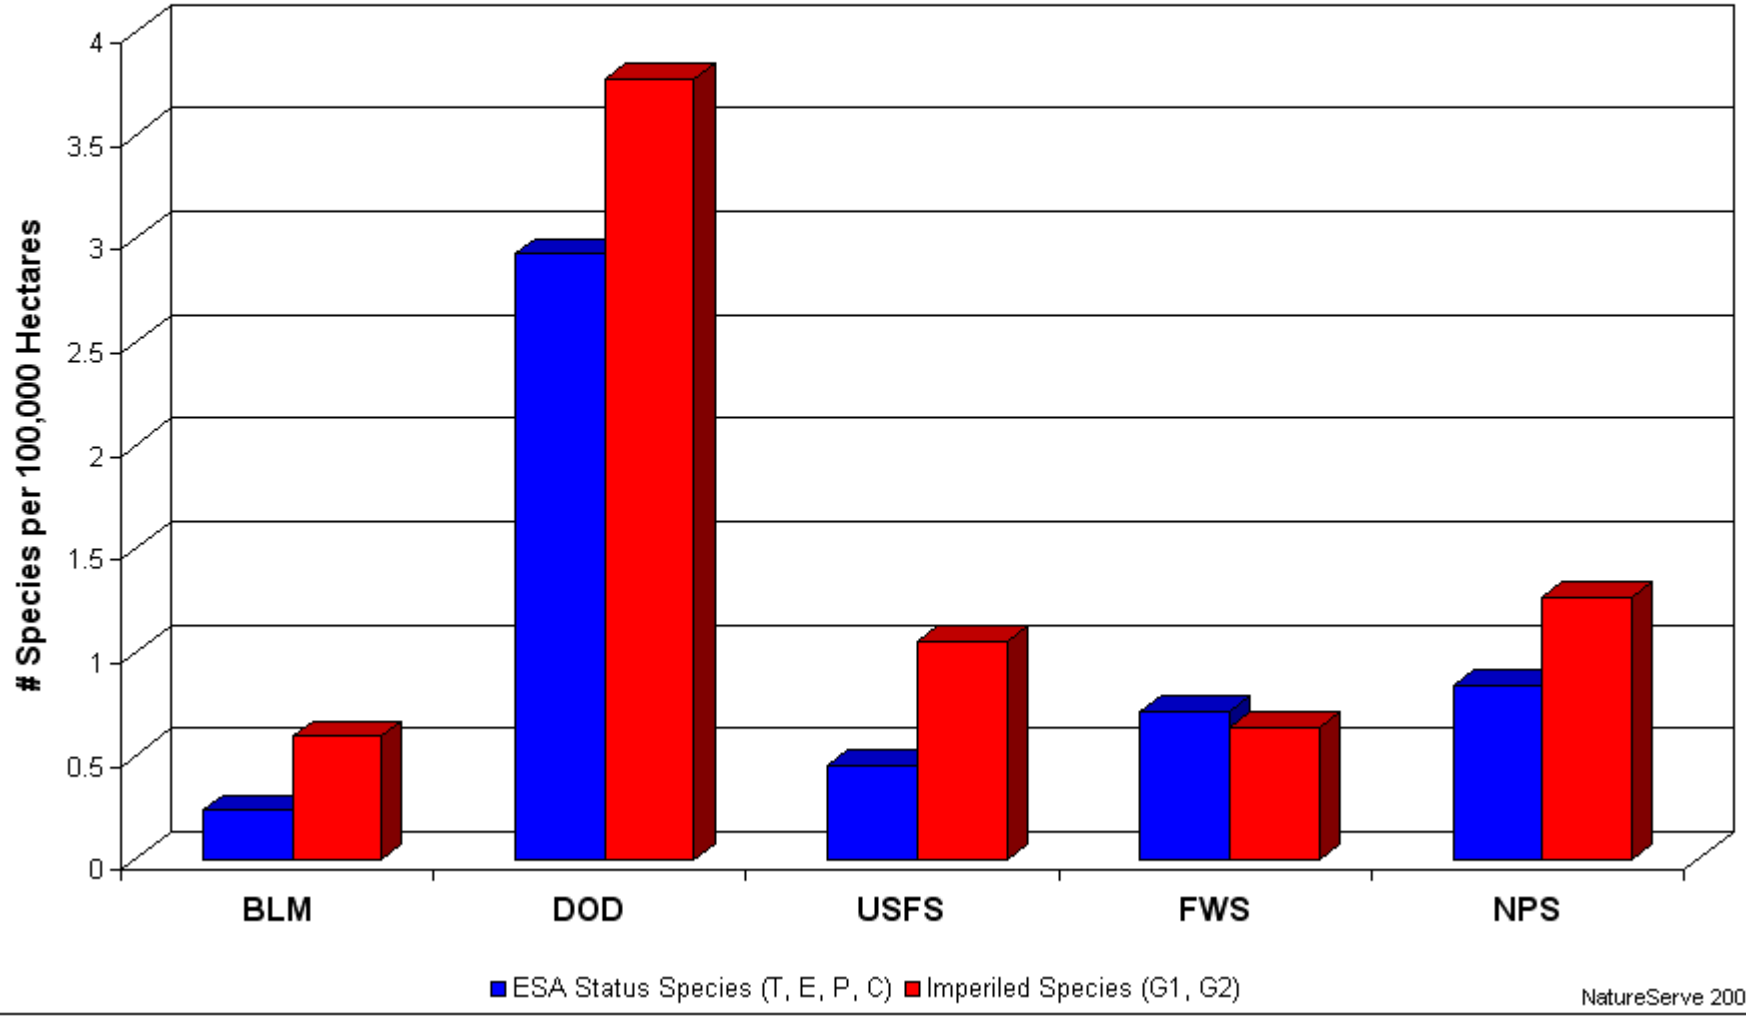
G5 - Widespread, abundant and secur

Oak Toad, G5

Distribution of Endangered and Imperiled Species on Federal Agency Lands



Density of Endangered and Imperiled Species on Federal Agency Lands



Number of Species at Risk on DOD Installations
